DETAILED ACTION

This office action is in response to the Amendment filed 7 May 2007.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald Townsend on 23 July 2007.

The application has been amended as follows:

Claim 10 has been replaced with the following claim:

A low pressure injection molding method for forming an elongated molded article in a vertically disposed single mold cavity having a plurality of vertically disposed resin supplying ports, said method comprising the following steps:

- (a) moving an injector portion so that it contacts a low vertically disposed resin supplying port in communication with a single mold cavity for the elongated article to be formed,
- (b) injecting at low pressure molten resin from the injection portion into the vertically disposed mold,
- (c) then moving the injector portion away from the low vertically disposed resin supplying port, and then vertically moving the injector portion to contact a next higher resin supplying port in the mold cavity, and
- (d) injecting at low pressure molten resin from the injection portion into the vertically disposed mold, and repeating steps (c) and (d) above until the mold cavity is filled with resin.

Allowable Subject Matter

Claims 10-12 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record neither teaches nor suggests the claimed low pressure injection molding method for forming an elongated article in a vertically disposed single mold cavity having a plurality of vertically disposed resin supplying ports, especially including, after injection into a low vertically disposed resin supplying port, carrying out the particularly-claimed steps (c) and (d).

Art Unit: 1732

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monica A. Huson whose telephone number is 571-272-1198. The examiner can normally be reached on Monday-Friday 7:00am-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Johnson can be reached on 571-272-1176. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
